List of Contents

NUMBER 1

G. S. Wang	1	Post yield fatigue crack growth analyses
C. Mabru, D. Bertheau, S. Pautrot, J. Petit and **G. Hénaff**	23	Influence of temperature and environment on fatigue crack propagation in a TiAl-based alloy
R. N. Ibrahim and **A. Kotousov**	49	Eccentricity correction for the evaluation of fracture toughness from cylindrical notched test small specimens
T. Chang and **W. Guo**	59	A model for the through-thickness fatigue crack closure
J. Sabino Domingues, A. Portela and **P. M. S. T. de Castro**	67	Trefftz boundary element method applied to fracture mechanics
Prabhakar R. Marur and **Hareesh V. Tippur**	87	A strain gage method for determination of fracture parameters in bimaterial systems
		Technical Notes
T. Fett and **D. Munz**	105	Local stress intensity factors for small semi-elliptical cracks under exponentially distributed stresses
Y.-S. Cheng, W. H. Douglas, A. Versluis and **D. Tantbirojn**	117	Analytical study on a new bond test method for measuring adhesion
	125	Calendar

NUMBER 2

C. P. Providakis	129	Boundary element analysis of creeping V-notched metallic plates in bending
N. K. Mukhopadhyay, S. K. Maiti and **A. Kakodkar**	141	Effect of modelling of traction and thermal singularities on accuracy of SIFS computation through modified crack closure integral in BEM
J. D. G. Sumpter	161	An alternative view of R curve testing
R. N. Wake and **J. T. Evans**	177	The effect of cracks on the natural frequencies of axisymmetric vibration modes of gas cylinders
Qi-Zhi Wang and **Lei Xing**	193	Determination of fracture toughness K_{IC} by using the flattened Brazilian disk specimen for rocks

A. V. Boiko, L. N. Karpenko, A. A. Lebedev, N. R. Múzika and **O. V. Zagornyak** 203 Calculation-experimental method for determining crack resistance of materials under biaxial loading

Robert M. McMeeking 217 Crack tip energy release rate for a piezoelectric compact tension specimen

Johan Helsing 245 Stress intensity factors for a crack in front of an inclusion

H. Razi, B. Sergeev, S. Shkarayev and **E. Madenci** 255 Analysis of sandwich panels with multiple-site damage

269 Calendar

NUMBER 3

Zhuo Zhuang and **Yongjin Guo** 271 Analysis of dynamic fracture mechanisms in gas pipelines

Xiaomin Deng and **J. C. Newman Jr** 291 A study of some issues in stable tearing crack growth simulations

G. Bernauer, W. Brocks and **W. Schmitt** 305 Modifications of the Beremin model for cleavage fracture in the transition region of a ferritic steel

L. H. Zhu, Q. X. Zhao, H. C. Gu and **Y. S. Lu** 327 Application of instrumented impact test for studying dynamic fracture property of 9Cr-1Mo-V-Nb-N steel

X. D. Wang, S. A. Meguid and **P. Papanikos** 337 Analysis of curved cracks emanating from adjacent holes

Technical Note

Theo Fett 357 Estimated stress intensity factors for semi-elliptical cracks in front of narrow circular notches

363 Calendar

NUMBER 4

Mustafa Koçak and **Christian Thaulow** iii Foreword

C. Thaulow, M. Hauge, Z. L. Zhang, Ø. Ranestad and **F. Fattorini** 367 On the interrelationship between fracture toughness and material mismatch for cracks located at the fusion line of weldments

S. Alexandrov, N. Chicanova and **M. Koçak** 383 Analytical yield load solution for overmatched center cracked tension specimen

Inoslav Rak and **Arpad Treiber** 401 Fracture behaviour of welded joints fabricated in HSLA steels of different strength level

K. Angamuthu, B. Guha and **D. R. G. Achar** 417 Investigation of dynamic fracture toughness (J_{Id}) behaviour of strength mis-matched Q & T steel weldments using instrumented Charpy impact testing

D. P. Boothman, M. M. K. Lee and **A. R. Luxmoore** 433 The effects of weld mismatch on J-integrals and Q-values for semi-elliptical surface flaws

P. Hornet and **C. Eripret** 459 Fracture behaviour of circumferential through wall cracked welded pipes in four point bending

B. K. Neale 473 The fracture behaviour of mismatched centre-cracked welded specimens in tension

P. Dong and **J. Zhang** 485 Residual stresses in strength-mismatched welds and implications on fracture behavior

Short communication

S. Alexandrov and **M. Koçak** 507 Limit load solutions for bilayer plates with a thorough crack subject to tension

513 Calendar

NUMBER 5

S. W. Ng and **K. J. Lau** 515 A new weight function expression for through cracks

W. Chen and **C. S. Lynch** 539 Finite element analysis of cracks in ferroelectric ceramic materials

Hans W. Reinhardt and **Shilang Xu** 563 Crack extension resistance based on the cohesive force in concrete

B. Yang and **K. Ravi-Chandar** 589 Evaluation of elastic T-stress by the stress difference method

H. K. Sriharsha, R. K. Pandey and **S. Chatterjee** 607 Towards standardising a sub-size specimen for fatigue crack propagation behaviour of a nuclear pressure vessel steel

J. Y. Chen, Y. Wei, Y. Huang, J. W. Hutchinson and **K. C. Hwang** 625 The crack tip fields in strain gradient plasticity: the asymptotic and numerical analyses

I. M. Robertson 649 The effect of hydrogen on dislocation dynamics

675 Calendar

NUMBER 6

V. Boniface and **K. R. Y. Simha**	677	Re-examination of crack opening model of interface fracture
N. I. Shbeeb and **W. K. Binienda**	693	Analysis of an interface crack for a functionally graded strip sandwiched between two homogeneous layers of finite thickness
Masaharu Iwamoto, Qing-Qing Ni, Teruhiko Fujiwara and **Ken Kurashiki**	723	Intralaminar fracture mechanism in unidirectional CFRP composites Part I: Intralaminar toughness and AE characteristics
Masaharu Iwamoto, Qing-Qing Ni, Teruhiko Fujiwara and **Ken Kurashiki**	749	Intralaminar fracture mechanism in unidirectional CFRP composites Part II: Analysis
Shan.-Tung Tu and **Kee.-Bong Yoon**	767	The influence of material mismatch on the evaluation of time-dependent fracture mechanics parameters
Jianjun Wang, Daqing Zou, Minfu Lu, Wei Ren and **Sheng Liu**	783	Evaluation of interfacial fracture toughness of a flip-chip package and a bimaterial system by a combined experimental and numerical method
		Technical Note •
Sameer Singhal, Jill Tucker and **A. Saxena**	801	Effect of long-term stress and temperature exposure on the fracture toughness of Ti-62222 alloy
	807	Calendar
